

Swimming Sports

Due to the fact that we are in Covid-19 Alert Level Two we will not be able to have any spectators at our swimming sports this week. We will still be holding these events as planned, however, they will be run with our school community only.

We will be videoing the junior class Water safety sessions with Aevril Hibbard on Tuesday afternoon and posting these videos to the class blogs for parents/caregivers to view in this way.

We will be attempting to 'Live stream' the senior swimming sports, to be held on Wednesday, in some way. This may be in the form of a google meet where we will share the invite for all parents/caregivers so you can watch the action from wherever you are.

We are not able to postpone these events as we need the names of students who will qualify for the Eastern Zone competition on Tuesday 9th March (Providing we are back to level one by then)

It is unfortunate that we have had to make these changes, however we are lucky to have the technology to enable parents/caregivers to see what children are doing even when you can't be there. We thank you for your understanding with this.
