

Oruaiti School

Caring | Confident | Responsible Life Long Learners

25th February 2021

Dear Parents/Caregivers

As of today we have been informed of more positive cases in our school community. Now that we are in phase 3 only those from the same household of a positive case are considered close contacts and will need to self isolate for 10 days starting from the day they become positive.

If your child is showing any signs or symptoms (fever, runny nose, headache, fatigue, sore throat) in the last 4-5 days we are urging you to have them tested as soon as possible. We would appreciate it if you could inform us of any positive cases so that we can manage the outbreak in the best way possible for our community.

School will continue to remain open. We will continue to practice safe hygiene in classes and we will keep you informed and updated when necessary.

We understand that for some of you this can be a stressful time, If you have any questions or concerns please contact the principal Diane Bates at principal@oruaiti.school.nz or Kaiya Lafotanoa at kaiyal@oruaiti.school.nz
